Save the hyperbaric goats

We the undersigned call upon QinetiQ to halt their animal based hyperbaric experiments on behalf of the MOD. Dozens of goats die as a result of these tests, despite the fact that the French navy conduct similar tests using non-animal based models.

We ask QinetiQ to turn to these humane alternatives, and to hand their goats over to SARC, or any other suitable organisation for rehoming.

NAME	ADDRESS	DONATION (optional)

PLEASE RETURN COMPLETED FORMS TO: SARC, PO BOX 5668, POOLE, DORSET, BH15 3ZR
